HAUPPAUGE, N.Y., May 16, 2011 /PRNewswire via COMTEX/ --

Audiovox Corporation (NASDAQ: VOXX), today announced results for its fiscal 2011 fourth quarter and year-ended February 28, 2011.

Commenting on the Company's performance, Pat Lavelle, President and CEO stated, "Our strength in the mobile sector led to modest year-over-year growth and enabled us to offset industry-wide weakness in certain consumer categories. While the U.S. market remains challenging, and there are still concerns over near-term consumer spending, our international business was up close to 17 percent and all of our industry groups, both domestically and abroad, posted significant increases in gross margin, resulting in higher operating profits for our Company. We've worked diligently to streamline our operations and focus on higher margin, more stable product categories and with the acquisition of Klipsch, we believe we are well positioned for fiscal 2012 and beyond. Audiovox is a different company today than in years past and we believe shareholders will be rewarded for their patience, especially as the global economies improve."

### Fiscal Year Comparisons

Net sales for the fiscal year ended February 28, 2011 were \$561.7 million, an increase of 2.0% compared to net sales of \$550.7 million reported in the comparable year ago period.

Electronics sales, which include both mobile and consumer electronics products, were \$415.2 million for the 2011 fiscal year as compared to \$375.0 million for the 2010 fiscal year, an increase of 10.7%. The increase in sales was driven primarily by the acquisition of Invision Automotive Systems ("Invision"), which was acquired in February 2010, as well as higher OEM business as a result of the strength in the automotive market. Additionally, the Company experienced sales increases in its security and video businesses. Offsetting the increase was the lack of FY11 sales of FLO TV as that product line was discontinued, lower fulfillment sales, and lower volumes of consumer good products at retail. Electronics sales represented 73.9% of net sales for the fiscal year ended February 28, 2011 compared to 68.1% in the comparable prior year period.

Fiscal year 2011 Accessory sales were \$146.5 million as compared to \$175.7 million in the comparable year-ago period. This decline of 16.6% was directly related to slower retail sales for products utilizing our accessory products at the retail level, primarily in the Audio/Video category. While a more diverse group of customers were added in FY11, continued weakness in consumer spending for non-essential items, such as flat-panel TV's, adversely impacted Accessory sales. Offsetting the decline, were increased accessory sales in the Company's European operations. As a percentage of net sales, Accessories represented 26.1% and 31.9% for the periods ended February 28, 2011 and February 28, 2010, respectively.

Gross margins were 22.1% for the fiscal year ended February 28, 2011, a 270 basis point improvement from 19.4% reported in the comparable fiscal year. This increase was a direct result of improved margins throughout all groups and the majority of product categories, lower freight and warehousing costs, and, the realization of a full year's sales from the acquisition of Invision.

Operating expenses increased by \$12.0 million or 11.6% from \$103.0 million to \$114.9 million for the years ended February 28, 2011 and February 28, 2010, respectively. The increase in operating expenses was primarily due to the year-over-year increase of \$8.3 million in overhead related to the Invision acquisition, as well as a \$2.7 million increase in professional fees for the Klipsch acquisition, other legal fees and audit services. Additionally, the Company experienced increases in its advertising and trade show expenses in its International subsidiaries and higher provisions for doubtful accounts related to costs associated with a previously reported customer bankruptcy settlement. Offsetting these increases were reductions in insurance and general office administrative salaries.

The Company reported operating income of \$9.0 million for the fiscal year ended February 28, 2011 compared to operating

income of \$3.8 million in the comparable year ago period. Net income for the fiscal year 2011 period was \$23.0 million or \$1.00 per share as compared to net income of \$22.5 million or earnings per share of \$0.98 for the fiscal year ended February 28, 2010. Net income for fiscal year 2011 was positively impacted by a \$10.5 million tax benefit compared to an \$11.3 million tax benefit in the comparable fiscal year.

### Fiscal Fourth Quarter Comparisons

Net sales for the three months ended February 28, 2011 were \$138.9 million, a decrease of 7.6% compared to net sales of \$150.3 million reported in the comparable three-month period.

Electronics sales, which includes both mobile and consumer electronics products, were \$102.8 million for the 2011 fiscal fourth quarter as compared to \$107.3 million for the fiscal 2010 fourth quarter, a decrease of 4.2%. Electronics sales were positively impacted by the acquisition of Invision, as well as higher sales of mobile electronics products in most categories. The increases in mobile electronics were partially offset by declines in mobile audio, lower margin consumer electronics business and sales of FLO TV products which were included in fiscal 2010 comparisons. Electronics represented 74.0% of net sales for the three-month period ended February 28, 2011 compared to 71.4% in the prior three-month period.

Accessory sales were \$36.1 million for the three months ended February 28, 2011 as compared to \$43.1 million for the three months ended February 28, 2010, a decrease of 16.1%. The Accessories group was impacted by the continued slowdown in consumer electronics sales at retail, particularly video-related products which correlate to the Company's accessories offering. Accessories represented 26.0% and 28.6% of net sales for the three-months ended February 28, 2011 and February 28, 2010, respectively.

Gross margins were 25.1% for the three months ended February 28, 2011, a 510 basis point improvement from 20.0% reported in the comparable year-ago period. The increase in gross margins is a direct result of improved margins in the Company's core product offerings both domestically and abroad, lower freight and warehousing expenses, and a decline in inventory mark-downs compared to the prior year period. Additionally, gross margins were favorably impacted by higher margin consumer electronics sales as well as higher OEM sales as a percentage of the overall mix.

Operating expenses decreased by \$0.6 million or 2.0% from \$30.4 million, to \$29.9 million for the three month periods ended February 28, 2010 and February 28, 2011, respectively. The decrease in operating expenses was directly related to continued, cost control measures the Company put in place in fiscal 2011, particularly attributed to lower salaries, advertising and trade show costs. Additionally, operating expenses for the 2011 fiscal fourth quarter includes \$2.4 million related to Invision compared to \$0.5 million in the comparable fiscal fourth quarter as well as approximately \$1.0 million related to professional fees in conjunction with the Klipsch acquisition. As a percentage of net sales, operating expenses increased to 21.5% as compared to 20.2% for the three months ended February 28, 2011 and February 28, 2010, respectively.

The Company reported operating income of \$4.9 million for the three months ended February 28, 2011 as compared to an operating loss of \$(0.4) million in the comparable year ago period. Other income declined \$5.9 million as a result of a \$5.4 million bargain purchase gain from the Company's acquisition of Schwaiger which took place in fiscal 2010. Net income for the three months ended February 28, 2011 was \$17.4 million or \$0.75 per share as compared to net income of \$6.6 million or earnings per share of \$0.29 in the three months ended February 28, 2010. Net income for the 2011 fiscal fourth quarter was positively impacted by a net tax benefit of \$12.3 million compared to a net tax benefit of \$1.0 million in the comparable fiscal fourth quarter.

#### Klipsch Acquisition and Pro-forma Comparisons

On March 1, 2011, Audiovox Corporation completed its acquisition of Klipsch Group, Inc. and its worldwide subsidiaries ("Klipsch") for a total purchase price of \$167.6 million, which consisted of a purchase price of \$166.0 million, plus a working capital adjustment of \$1.6 million, as well as related transaction fees and expenses. Also on March 1, 2011, the Company entered into a Credit Agreement with Wells Fargo Capital Finance, LLC ("Wells Fargo") and secured a Credit Facility with an aggregated committed availability of up to \$175 million. The Company financed this acquisition through a combination of existing Audiovox cash and approximately \$89.1 million of borrowings under the Credit Agreement.

On a pro forma basis, had the Klipsch acquisition taken place on March 1, 2009, the Company would have reported net sales of \$728.3 million for the fiscal year-ended February 28, 2011 as compared to net sales of \$706.7 million for the fiscal year-ended February 28, 2010. Net income and earnings per share (basic) for the comparable periods ended February 28, 2011 and February 28, 2010 would have been \$31.4 million or \$1.37 as compared to net income of \$38.9 million and earnings per share of \$1.70.

In fiscal 2012, for the year-ended February 28, 2012, the Company is projecting net sales of \$730 million for the combined business and EBITDA of \$42.0 million, of which \$25.0 million is related to Klipsch. Management will be providing further details regarding fiscal 2011 comparisons, its acquisition of Klipsch and its fiscal 2012 outlook on its year-end conference call.
