RadioShack to Carry New RCA Symphonix Personal Sound Amplifier

Product currently in RadioShack stores

CARMEL, Ind., Oct. 26, 2011 /PRNewswire via COMTEX/ --

RCA today announced that the RCA Symphonix Personal Sound Amplifier is currently available for retail purchase at more than 2,000 RadioShack locations in 48 states, significantly expanding the distribution of this new product. The 2,000-plus store roll-out follows a successful market test in selected locations.

Symphonix is a Personal Sound Amplifier, designed to help you hear better in all kinds of situations, like large groups, on crowded streets, in the office, at a loud restaurant, or even watching TV. It is more affordable than comparable hearing-assistance devices with a suggested retail price of \$299.99. Symphonix is rechargeable, eliminating the cost of replacement batteries.

"We are very excited to be partnering with RadioShack, one of the top national retailers in America, to launch this exciting new product," said David Geise, President of Audiovox Accessories Corporation. "RadioShack is the perfect retailer for this product because of their diverse customer base and unparalleled points of distribution. We believe RCA Symphonix fits perfectly in their new wellness section," said Geise.

"RadioShack is expanding its commitment to personal technology products in wellness, a growing category in consumer electronics," said John Lostrosio, merchant vice president for consumer electronics at RadioShack. "Symphonix is an efficient, cost-effective solution for our customers who need assistance with hearing in certain situations."

RCA "Symphonix" model RPSA10 is a Personal Sound Amplifier that offers digital technology, clean amplification and discreet design. Symphonix comes in one discreet size that fits most men or women and works in either ear.

Symphonix provides smooth amplification and background noise reduction over a wide range of frequencies. The device features a convenient 3-step progressive volume control and on/off switch in the earpiece. The unit uses patented thin sound tubes, weighs less than one-quarter ounce and it is so small that it does not interfere with eye glasses. Symphonix does not interfere with use of a mobile phone.

Symphonix offers a simplified storage and charging base to take the fuss out of recharging the hearing device, and eliminates the cost of replacement batteries. Symphonix delivers up to 15 hours of service on a full charge.

The RCA brand is marketed by Audiovox Accessories, a wholly owned subsidiary of Audiovox Corporation (NASDAQ: VOXX).

About RCA

The RCA brand is one of the oldest and well known brands in the consumer electronics industry. RCA's history in this space runs deep, beginning in the early 1920's during the golden age of radio, to their place as a TV legend; RCA has distinguished itself through proven manufacturing and engineering innovations that have led to today's well-deserved consumer electronics legacy.

RCA products include some of the most technologically advanced digital home entertainment and accessories solutions in the market place. The Company sells and markets a variety of products including Personal Sound Amplifiers (PSAs), remote

controls, MP3 players, digital camcorders, DVRs, Internet radios, clock radios, indoor/outdoor antennas, connectivity products, headphones, speakers, wireless solutions, power & surge protectors and more. RCA products are found virtually in every retailer in the US and Canada and today, RCA holds #1 market share in remote controls and digital reception (antennas).
