Soundboard Portable Speakers with SoundFlow Wireless Audio Now Available

HAUPPAUGE, N.Y., Oct. 23, 2013 /PRNewswire/ -- VOXX Accessories Corporation today announced the launch of the SoundFlow™ Soundboard Portable Speaker.

The SoundFlow Soundboard instantly lets consumers enjoy smartphone audio in a big way, requiring no wires, no pairing or connection. Just place any smartphone on top of the Soundboard. SoundFlow wireless audio does the rest! The Soundboard supports virtually all brands and models of today's smartphones. In fact, almost any portable device with a speaker works with a Soundboard. The Soundboard is available in 3 different colors: SP20WHBK (white top, chrome trim and black bottom), SP20WDBK (woodgrain top, chrome trim and black bottom), and SP20BKGR (matte black top, lime green trim and black bottom).

SoundFlow wireless audio technology was developed by VOXX Accessories Corporation in response to a survey they conducted showing that, of the nearly 80% of smartphone users that listen to music from their phones, most of them (55%) still use the phone's built-in smartphone speakers at times to listen to music. The SoundFlow Soundboard is an easy solution for these smartphone users, providing enhanced sound quality and amplification over the smartphone's built-in option.

"The SoundFlow product line grew out of a simple desire: to make it as easy as possible to turn smartphone audio into sound that's big enough to enjoy out loud. The Soundboard takes this convenience one step further, by making SoundFlow completely portable," said David Geise, President of VOXX Accessories Corporation. "Just place any smartphone with music playing on top of the Soundboard to enjoy music anywhere in a big way! When you're ready to move, just pick up the Soundboard and your phone, and go. It doesn't get any easier."

The user-friendly device is easy to use for all ages and works in any environment. The lightweight speaker is perfect for listening to music in the house, on the go or even in the office. The Soundboard Portable Speaker also works great as a speakerphone—simply place your smartphone on top of the Soundboard to take calls hands-free in a group setting.

The Soundboard Portable Speaker has a total output power of 2W, with enhanced sound from its dual-ported audio design, volume controls, and a 3.5mm audio in jack (cable included). The Soundboard offers two options for power: 5V DC or batteries (3xAA, sold separately), with an LED power indicator.

The SoundFlow™ Soundboard Portable Speaker is available now, with an MSRP \$29.99, from many major retailers including Office Depot and Walgreens.

Safe Harbor Statement

Except for historical information contained herein, statements made in this release that would constitute forward-looking statements may involve certain risks and uncertainties. All forward-looking statements made in this release are based on currently available information and the Company assumes no responsibility to update any such forward-looking statement. The following factors, among others, may cause actual results to differ materially from the results suggested in the forward-looking statements. The factors include, but are not limited to risks that may result from changes in the Company's business operations; our ability to keep pace with technological advances; significant competition in the automotive, premium audio and consumer accessories businesses; our relationships with key suppliers and customers; quality and consumer acceptance of newly introduced products; market volatility; non-availability of product; excess inventory; price and product competition; new product introductions; foreign currency fluctuations and concerns regarding the European debt crisis; restrictive debt covenants; the possibility that the review of our prior filings by the SEC may result in changes to our financial statements; and the possibility that stockholders or regulatory authorities may initiate proceedings against VOXX International Corporation and/or our officers and directors as a result of any restatements. Risk factors associated with our business, including some of the facts set forth herein, are detailed in the Company's Form 10-K for the fiscal year ended February 28, 2013.
